

Marketplace where Shipowners connect with Seafarers as Investors to speed up the decarbonization process.

Shipowners Problems

Solutions

UVP

Solutions

Seafarers Problems

- Decarbonization - Environmental regulations push shipowners to invest in innovations.
 - Human Resources –recruitment and retention of ship crew.
 - Automatization by new technologies requires new skills and training.
 - Geo-Political tension.
- By involving Seafarers in the process all can be done faster and more profitably.
 - By giving ownership and part of profits, seafarers will be more willing to join and stay long-term.
 - Seafarers by being part shipowners are more engaged in absorbing new.
 - By accepting Seafarers into shipowner status, tension might be reduced.

Real World Asset Marketplace connects Shipowners with Seafarers to enhance the transition towards Decarbonization, implementation of new technologies, and quality retention of maritime professionals.

- Ability to invest in long-term solid assets.
- Fractionalized Asset sales reduce entry level.
- Digital, easy-to-use Marketplace.
- Ships in Marketplace are under Full ship management company contracts.

- Financial instability at the end of career.
- The high entry price to own the ship.
- Complicated procedure to become a shipowner. Not feasible for ordinary seafarers.
- Ship management - technical, contracts, crewing, operational, QHSE, etc.
